May We Suggest . . . that you order your seeds and plants early to avoid disappointment. Some varieties are scarce this year. Give us the date you want your plants shipped. In case we are out of some variety you order, and it is not available, we will give you the next best unless otherwise indicated on your order. Some seed stock has been cut 50%. We will do our best to supply your wants. Help us by getting your order in early.

Benton County Nursery

ROGERS, ARK.

ONIONS

15c Pkt.
$1.00 oz.

SILVER SKIN LARGE WHITE GLOBE (110 days to maturity), best white onion that you can cultivate, large perfect globe, excellent quality, a good keeper and silvery white in color. You can always get a little better price for these onions.

GIANT YELLOW SWEET SPANISH *Riverside Strain* (110 days to maturity), absolutely the largest, sweetest and mildest onion that can be grown from seed in the north, a beautiful golden yellow, perfect globe shape. Single onions have been grown that weighed over 4 lbs. Yields from 500 to 1000 bushels per acre are not uncommon. The mild flavor and fine appearance make them salable at the highest market price.

EBENEZER, the Extra Early, Long Keeping, Mild Onion, flesh is white, firm and of a very delicate flavor. Quite similar to Yellow Globe Danvers in shape but much larger in size, yellow skinned and has very small tops and matures early. Many people who know this onion will have no other kind for their own table.

WHITE SWEET SPANISH (110 days). Large, mild and sweet. Pure white. A much better keeper than the Bermuda.

SWEET CORN

10c Pkt. 30c 7-oz.
55c 14-oz.
$1.25 2½ lbs.

GOLDEN BANTAM (83 days) This golden colored corn is the leading variety for early home garden planting; ears, though small, are numerous and of finest quality, very sweet and tender. Plant 4½ to 5 ft. tall, ears 6 to 7 in. long, 8 rowed.

STOWELL'S EVERGREEN (105 days) Best for late corn. Kernels white, plants 7 to 7½ ft. tall, ears 8 in. long, 14 to 20 rowed.

COUNTRY GENTLEMAN (95 days) A good home garden variety. cob small, grains white, very deep, small and irregular, very sweet and tender. Plant 6½ to 7 ft. tall, ears 7½ to 9 in. long.

BLACK MEXICAN (88 days) Very sweet and tender. Ears are white when in eating condition, turning black as it matures. Plants 6½ ft. tall, ears 8 to 9 in. long and 8 rowed.

HYBRID —*Superb for Home Gardens.*

GOLDEN CROSS BANTAM (85 days to table), chief reliance of canners, quick-freezers and market growers of quality sweet corn. Plants large and thrifty, often produce 2 to 3 ears. Ears very uniform and attractive, about 8 in. long and filled compactly with 12 to 16 straight rows of kernels that are unexcelled for any purpose for which sweet corn is grown.

AFRICAN GIANT POPCORN

Special Bred
Disease-Free
Seed
Pop Corn

Extra large, smooth grains. Some of them as large as one inch in diameter after popping. Pops with a loud bang. The minute it starts to pop, it sounds like a battle. Rich, cream-colored grains. Tender and delicious.

7-oz. 35c; 14-oz. 55c; Pkt. 10c

White Hulless

Kernels translucent waxy white; large and snow white when poopped.

10c Pkt. 35c 7-oz. 55c 14-oz.

South American Hybrid Popcorn

Same as regular South American only being hybrid it can stand more cold, hot or dry weather and yield is greater. The additional cost more than pays in yield. Plant 5-6 lbs. per acre.

Pkt. 15c 7-oz. 45c 14-oz. 75c
2½ pounds $2.00 postpaid

LEAF LETTUCE

10c Pkt. 30c 1 oz. 85c ¼ lb.

BLACK SEEDED SIMPSON, a favorite among the loose leaved kings, very crisp and tender.

EARLY CURLED SIMPSON, the best of early varieties of the loose leaved kinds; leaves light green, crisp, and fine flavor.

HEAD LETTUCE

10c Pkt. 35c 1-oz.
$1.10 ¼ lb.

NEW YORK No. 12 *or Los Angeles Market,* an improved type, early and sure heading. Is of fine appearance, excellent quality and has a large percentage of perfect heads.

BIG BOSTON A variety highly recommended for home gardeners. Sure header, medium size, outer leaves attractive green color tinged with brown. Heads are crisp, fine buttery flavor. Be sure to plant this variety in your home garden.

CUCUMBERS

10c Pkt. 35c 1 oz. $1.00 ¼ lb.

BOSTON PICKLING (60 days) an early pickling or slicing variety. Fruits weigh about 1½ lb. 6 in long and 2½ in. in diam.

IMPROVED LONG GREEN (70 days) One of the best for all purposes—fruits long and slender, seed cavity small. Fruits weigh 2½ lbs. are 12 to 15 in. long and 2½ in. in diam.

STRAIGHT EIGHT —*Fine Slicer* (66 days) A big vigorous grower, cylindrical in shape, uniform round, dark green over the entire surface, small seed cavity, thick flesh of fine quality and very attractive. One of the best.

COLORADO (60 days) finest slicing cucumber in existence, fruit 9 in. or more in length, slim, only 2½ in. in diam., very straight, very dark green, full at the ends and stays green longer than most sorts. Heavily productive and extra early. Not adapted for pickling as the fruit is too slender when young.

STAYGREEN (60 days) Our strain is the improved long type and is one of the most productive and popular cucumbers in use today. For years it has been a leading shipper and is commonly used in the home and market gardens.

WEST INDIA GHERKINS (60 days) a little oval shaped prickly pickle which is said to have come from the West Indies. Very prolific bearer, a stronger grower than most cucumbers, grows anywhere and is practically bug and disease proof.

SNAKE CUCUMBER can be sliced. Grows crooked and resembles a serpent. Try a few.

15c Pkt. 45c 1-oz.

DILL (70 days) Annual. The young stems are nice for flavoring soups and sauces and are used extensively in a minced state with lettuce. The dry or green branches and seeds are much prized for flavoring dill pickles..Pkt. 10c

PARSLEY, 15c Pkt. 30c 1 oz. 75c ¼ lb.

MOSS-CURLEY Vigorous, compact-growing variety; excellent for garnishing and flavoring; also a handsome decorative plant. Leaves fine and crisp, resembling moss. A most popular sort for the market and home garden.

CORNFUME

The Easy-to-apply Economical Control of Corn Ear Worm.

Based on a formula successfully used in tests made by leading Agricultural Specialists. The Cornfume Applicator delivers just the right dose in one application. To be applied on the Corn just before the silks turn brown. One application is sufficient for satisfactory control.

CORNFUME is tasteless and odorless. It does not impart any foreign flavor or odor to the corn.

PROTECT YOUR CORN CROP AGAINST THE RAVAGES OF THIS MOST DESTRUCTIVE INSECT.

MUSKMELON

Packet 10c
1 ounce 35c
¼ pound $1.00

HEARTS OF GOLD (95 days), is mighty, mighty tasty clear to the rind. Gets its name from the golden yellow flesh. The melons are almost round, heavily netted. It is medium early, very productive, and one of the best shipping melons on the market. The flesh is thick, firm and solid—the kind you like.

TIP TOP *or Salmon Flesh* (96 days) a large size, main-crop melon, varying in shape from round to slightly oblong. The pale green skin is distinctly ribbed and lightly netted. Flesh is a beautiful deep salmon, sweet, spicy, and full of rich aroma. Popular with home gardeners and, in some sections, a leader with market growers.

HONEY DEW *or Green Flesh* (110 days). The well-known green-fleshed melon for warm climates; will not do well in the north and east. Smooth, ivory colored skin; rich, emerald-green very sweet flesh.

HONEY OR SUGAR ROCK (85 days) An early variety increasing in popularity among market gardeners and shippers. Fruits—5-6-in. in diam., round to slightly flattened, coarsely netted, rind strong, deep salmon color.

HALE'S BEST (80 days) Most popular market sort, medium size, very early sort, slightly oblong, but well netted and very attractive. Thick flesh, deep orange color extensively planted in the commercial muskmelon growing districts.

Banana Muskmellon Surpasses all others in its delicious flavor. The flesh (the melon being nearly solid) is of a rich salmon. The quality is excellent when the melon is thoroughly ripe. 18 to 36 in. in length; very prolific. Exceptionally sweet, spicy and delicious. Don't fail to try it.

15c Pkt. 40c 1-oz. $1.25 ¼ lb.

Vine Peach Ripe fruit in 80 days after seed is planted. This wonderful Vegetable Peach is the most beautiful of all vegetables. They resemble oranges in color, shape and size, and grow on vines like melons. Extremely early; of the easiest culture, and very prolific.

15c Pkt. 40c 1-oz. $1.25 ¼ lb.

OKRA

10c Pkt. 20c 1oz.
65c ¼ lb.

WHITE VELVET grows strong, tall, 3½ to 4 ft. high. The pods are about 6 to 7 in. long, white, slender, fleshy and very tender Early maturing and extensively grown for home use and local markets.

DWARF LONG GREEN POD, early and very prolific, grows 2½ to 3 ft. tall; pods dark green, fleshy and tender; become 7 to 8 in. long and 1⅛ in. in diam.; tapered near tip.

PEANUTS

15c Pkt.
30c 7-oz.; 50c 14-oz.

They're easy to grow, roast and eat. If you don't think so, take a pan of your home grown peanuts, put them in the oven for about 30 min. and eat them while they are still hot. Good! of course; and—it's fun to plan to do this on long winter evenings, the children like them too! Peanuts will stand lots of dry weather and still yield an immense crop of delicious nuts. Plan on planting some peanuts this season.

IMPROVED SPANISH. Small nut can be grown in north.
TENN. RED. Large nut, not suitable for north.
Full directions with each pkt.

Mustard

10c Pkt., 20c 1-oz., 65c ¼-lb., $2.00 lb.

GIANT SOUTHERN CURLED, leaves large light green, finely curled, and have a mild agreeable flavor. It also makes a fine greens for poultry.

MUSTARD SPINACH smooth leaf, fine flavor. Mustard that produces heavy and tops the list for "greens." Also known as Tendergreen.

CELERIAC or *Turnip Rooted Celery* (120 days) grown exclusively for its root, which are fine for soups and stews or cooked and sliced as a salad. The roots keep all winter if packed in damp sand or put into kilns like beet, carrots, etc. Plant and cultivate like celery except it does not require earthing up.

10c Pkt. 60c ½ oz. $1.00 1 oz.

BROCCOLI

Italian Green Sprouting

is as easy to raise as cabbage and is as good as Cauliflower. The plants do not make solid heads but produce an abundance of light green tender sprouts which are delicious creamed or used for greens.

15c Pkt. 40c 1-oz. $1.40 for 4-oz.

BORECOLE OR KALE

Is the best of all and should be in every garden. Easy to raise it yields immense crops. The tender delicious leaves may be served creamed or as green.

10c Pkt. 25c 1-oz. 75c for ¼ lb.

CELERY

Giant Pascal

Is best of all for fall and winter use. It is tall, has large thick and solid green stalks, which blanch to golden yellow. Crisp and is good keeper.

15c Pkt. 45c ½-oz. 80c 1-oz.
$2.75 ¼-lb.

SWISS CHARD

Giant Lucullus

Large, tender leaves, stalks as thick as Rhubarb but never tough, and leaves can be picked as needed. Can be cooked like Asparagus or green and is also used for chicken feed.

10c Pkt. 25c 1-oz. 80c ¼ lb.
$2.40 1 Lb.

10c Pkt. 35c 1-oz.
$1.00 for ¼-lb.
$3.00 for 1 lb.

DETROIT DARK RED (59 days) Splendid for the home garden, market shipping and canning. An early maturing beet of remarkable uniformity is perfectly round and of a deep red color. They reach 2½ to 3 in. in size and have a small collar and a thin tap-root. The flesh is very blood-red, showing hardly any zones. It is tender, fine-grained, exceptionally sweet. Medium size foliage.

CROSBY'S EGYPTIAN (48 days) an extra-early variety for home and market garden use. Unexcelled for bunching. Roots are smooth, round, with slightly flattening tops; small tap-root. The flesh is very dark blood-red. Tops are medium and the roots deep purplish red. Crisp and tender.

BRUSSEL SPROUTS

A variety of cabbage bearing on its stem or stalk 50 to 100 small compact round heads. Plants (20 in. tall) are hardy. Frost improves them. Cook and serve like cabbage or cauliflower.

15c Pkt. 50c ½-oz. 90c for 1-oz.

EGG PLANT

Egg plant like a rich, loamy soil. Plants should be set out in the garden as soon as danger of frost has passed, in rows 3 ft. apart.

BLACK BEAUTY (80 days) Is oval in shape, uniformly the darkest in color. Perfectly spineless and smooth; has beautiful, rich purple color and handsome lustre.

Pkt. 15c ½-oz. 50c 1-oz. 90c

CARROTS

High in Vitamin A

10c Pkt. 50c 1-oz. $1.75 ¼ lb.
$4.50 1 lb.

CHANTENAY—LONG TYPE (70 days). New strain of Chantenay meets the popular demand for longer Carrots. Deep orange, smooth, tapered, stump-rooted. Strong, medium tops.

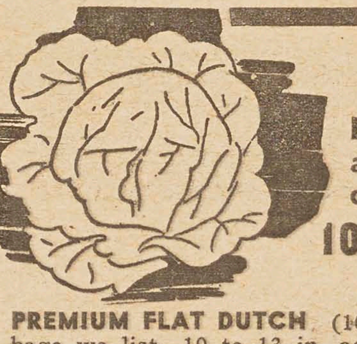
DANVERS HALF LONG (75 days). Prime favorite, brilliant market appearance. Smooth, handsome roots, 6½ to 7½ in. long, tapering to blunt point. Deep, bright rich orange, tender, sweet and crisp. When bunched makes the most attractive Carrot of the market. Sells at top market prices. Our strain is outstanding.

OXHEART Short broad carrot, heaviest yielder of the table carrots, and the easiest to harvest. Roots sometimes 5 in. in diam and about same length. Often planted for stock food although excellent table carrot.

NEW CORELESS CARROT

A new rapid growing early variety of superior flavor; tender and without any woody heart or core. Roots are half-long, blunt-pointed and grow to a medium size; are very smooth, and of a deep orange-red color. Highly recommended for market or home use when either young or full grown.

15c Pkt. 60c 1-oz.
$1.75 ¼-lb. $4.50 1 lb.



CABBAGE

Build Up Vim, Vigor and Health, Eat Plenty of Fresh Cabbage.

10c Pkt. 35c ½-oz.
65c 1-oz.

PREMIUM FLAT DUTCH (100 Days). The largest cabbage we list—10 to 13 in. across, 5½ to 7 in. deep and weigh 10 lbs. and more. Can of course be used when much smaller. Valuable for late fall and winter use, whether for home or market. Medium stem.

COPENHAGEN MARKET, one of the finest early round-headed cabbages in cultivation. Heads all mature at the same time enabling grower to gather crop at less expense and permits cleaning the land at the first cutting. Heads average about 10 lbs. each, are hard and solid with small core. Extra fine sweet quality, is short stemmed variety, heads nearly restiing on the ground.

EARLY JERSEY WAKEFIELD (62 days) Our stock is characterized by its distinctive, smooth, blue-green leaves. Valuable for home and market garden, plants small, with short stems, permit close setting in the row. Small compact, hard, conical heads are 7 in. long, 5 in. wide at the base, weigh 2 lbs. Unusually early maturity, also cold-resistant.

CHARLESTON WAKEFIELD (71 days) About a week later than Early Jersey Wakefield, but the conical heads are fully ½ larger, less pointed, and usually weigh 4 to 5 lbs. Heads are broad heart-shaped, 8 in. long, 7 in. broad at base, firm, very solid; and a heavy yielder. Largely used in the South for spring shipping to northern markets and also excellent for the home garden and truckers.

CHINESE CELERY CABBAGE

This new Oriental Cabbage is excellent for salad purposes. In flavor, it resembles both celery and Cos Lettuce, but is much sweeter and more tender. Many people prefer it to head lettuce. It is also delicious for greens.

The heads are tall and cylindrical. They reach a height of 18 inches, and a weight of 5 pounds.

For summer use, Chinese Cabbage should be planted in a hotbed and transplanted so they will make heads before the hot weather. If you desire a fall crop, sow in the latter part of July or early in August.

10c Pkt. 35c ½-oz. 65c 1-oz.

LIGHTNING EXPRESS

LIGHTNING EXPRESS is positively the earliest cabbage in cultivation. The heads are pointed, of good size, a little smaller than Jersey Wakefield, always sure to head, solid and firm, and always in demand on the market, bringing high prices on account of their extreme earliness. Very hardy, permitting earliest planting. There are but few outer leaves, and plants may therefore be set closely together. As many as 14,000 heads can be grown on one acre of ground, and will bring a larger profit per acre than later and heavier varieties.

15c Pkt. 40c ½-oz. 75c 1-oz.

IMPROVED GOLDEN WAX BEANS

Undoubtedly one of the best wax beans for the home garden. Rust-proof, an improvement of the old style Golden Wax. Pod is semi-round, yellow, of good quality, and it has no strings. Ready for picking 47 days from planting.

Pkt. 10c 7-oz. 45c 14-oz. 75c
2½ lbs. $1.45 5 lbs. $2.75

Stringless Green Pod Beans

10c Pkt. 45c 7 oz. 75c 14-oz.
$1.45 for 2½ lbs. 5 lbs. $2.75

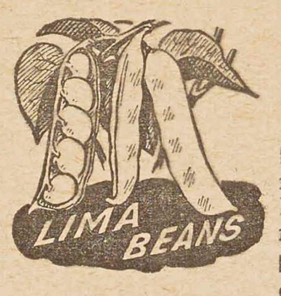
TENDERGREEN—STRINGLESS (53 days) Strong, vigorous plants are well branched and bear a great quantity of beautiful dark green, round, extremely meaty, tender pods. 6 to 7 in. long. Absolutely stringless and free from fiber at all stages of growth; most delicious flavor. Pods mature early and are borne profusely for a long time. Ideal for market or canning.

FULL MEASURE—STRINGLESS (54 days) Medium-early, well-branched round plants bear large crop of fleshy, deep green round pods 5 in. long. Of superb quality and rich flavor, popular for high yields and long picking season.

BOUNTIFUL STRINGLESS (48 days) Green pods of choicest quality, 6 in. long, flat, tender, rich flavor, matures early. Proven to be unexcelled on heavy as well as light soils. Vigorous, hardy prolific plants bear over a long season. The best flat green-pod Bush Beans.

FROSTPROOF BEAN or *English Broad Bean* (75 days) Should be planted with your early garden at the same time you plant radishes and onions. Grows very hardy, between a bush and a vine. Shell beans are large and have a distinctive flavor.

15c Pkt. 55c for 7-oz. $1.00 for 14-oz.



LIMA BEANS

10c Pkt.; 45c 7-oz.; 75c 14-oz.
$1.45 2½-lbs.; $2.75 5-lbs.

HENDERSON'S BUSH LIMA (67 days). Is most dependable and best yielder of the limas. Great for shell beans and canning. Stands dry weather.

BURPEE'S IMPROVED BUSH—the largest of all Bush Limas. 5 to 6 in. long by 1¼ in. wide.

LARGE WHITE POLE LIMA (88 days) also known as *"King of the Garden."* Pods are 6 in. long, broad, flat, and contain 4 or 5 large greenish white Beans of superior quality. Productive over a long season.

DRY BEANS or SOUP BEANS

10c Pkt. 45c 7-oz. 75c 14-oz.
$1.45 for 2½ lbs. $2.75 for 5 lbs.

GREAT NORTHERN the Old Standby for Winter Use— (90 days) *Montana White.* The large flat soup bean a little larger than the Navy Bean but eats every bit as well and is lots easier to pick over. A good yielder and early.

RED KIDNEY (70 days) As easy to grow as the others; good yielder of large, dark red, dry beans. Just the thing for baking or for soup.

HOPI INDIAN BEAN *(lima type)* grown by the Hopi Indians of Northern Arizona from prehistoric times under strictly dry farm conditions and crude farm practices. Fine for eating (strongly anti-acid) and a heavy producer they are semi-vining, long rooted, drought-resistant and should be placed in rows 30 to 40 in. apart. Require the full summer season and should be harvested before frost.

15c Pkt. 55c for 7-oz. $1.00 for 14-oz.

Garden Nitragin
For Beans, Peas and Sweet Peas **10c**

POLE BEANS

10c Pkt. 45c 7-oz. 75c 14-oz.
$1.45 for 2½ lbs. $2.75 for 5 lbs.

KENTUCKY WONDER WHITE SEEDED: Similar to Kentucky Wonder, only earlier and white seeded.

KENTUCKY WONDER *or Old Homestead (65 days) Early,* climbs well, bears a heavy crop of large, green, curved pods, 7 to 9 in. long. Due to great length they appear slender though thick and meaty; tender, brittle, of good quality, show slight strings as the pods reach full size. Preferred to all other green-podded pole beans.

MISSOURI WONDER (65 days), extremely early; round, medium green pods, 6 in. long. Excellent dorn hill beans for snaps.

WHITE CREASEBACK (62 Days). Seeds small, oval, white and fine for baking. Pods round, light green, 5½ ins. long, curved, tender, brittle and nearly stringless.

STRIPED CREASEBACK Unexcelled for field bean. Practically same as white except bean seeds are buff with blackish stripes.

YARD LONG POLE BEAN An excellent variety—vines are rampant growers and produce an enormous crop of long slender round pods, a quality snap bean. Pods grow 3 ft. long and are very tender and a fine flavor.

15c Pkt. 55c for 7-oz. $1.00 for 14-oz.

1,200 TO ONE BEANS, a gigantic wonder—over 200 pods have been grown on a single plant—all well filled, producing over 1,200 beans from one bean. Strong, erect plants, bear pods well up from the ground. Order now, limited supply.

15c Pkt. 55c for 7-oz. $1.00 for 14-oz.

Edible Soybeans *For Vitamins*

Bansei—(90 Days). An early edible type adapted for production of ripe beans in regions of short seasons but suitable for green shelling. Very productive, not as susceptible to shattering. Pods yellow with black tinge. Plant erect and medium height. Seed medium sized and yellow.

Pkt. 10c 7-oz. 35c 14-oz. 55c
2½ lbs. $1.25

HEART-OF-THE-OZARKS SEEDS

FREE with each order for seed amounting to $2.50 or more, we will include a big package of our FLOWER GARDEN MIXTURE that contains the old and new favorites. You will enjoy gorgeous blooming flowers throughout the summer.

PUMPKIN

JUMBO OR MAMMOTH KING

Often weighs 100 to 300 lbs. Always a prize winner at exhibitions. A good pie pumpkin, is splendid keeper and valuable for feeding purposes.

10c Pkt.
45c for 1 oz.
90c for ¼ lb.

TENNESSEE SWEET POTATO PUMPKIN is an excellent sort, which, when cooked, resembles a sweet potato in flavor, but is of more delicious taste. Pear-shaped and slightly ribbed, the color is creamy white, sometimes striped with green.

10c Pkt. 25c for 1 oz. 70c for ¼ lb.

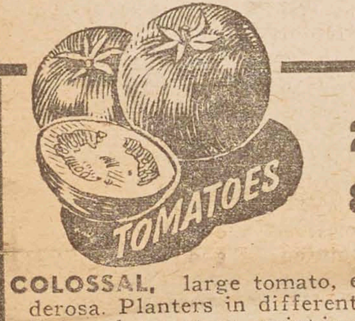
SMALL SUGAR OR NEW ENGLAND PIE PUMPKIN is earliest and best for pies Fruit commonly 6 in. long and 8-9 in. in diam. Flesh thick, orange yellow, of unexcelled quality.

CUSHAW CROOKNECK Green striped, a good keeper, fine flavor and very prolific.

CUSHAW—WHITE, 115 DAYS Similar to green striped except better for storage. Fine for pies. Exceedingly prolific.

CUSHAW—GOLDEN Similar to white, except golden flesh, sweeter.

10c Pkt. 25c for 1 oz. 70c for ¼ lb.



20c Pkt. 3 Pkts. 50c
80c ½-oz. $1.50 1-oz.

COLOSSAL, large tomato, even larger than the famous Ponderosa. Planters in different parts of the country have grown Colossal tomatoes weighing over 3 lbs.; some more than 4 lbs Colossal has very thick, meaty flesh, few seeds, and mild flavor; produces giant fruits in abundance. One planter in Illinois raised over a ton of tomatoes from 186 plants. Unsurpassed for slicing or canning. Limited supply. Choice of Red or Yellow Colossal (Yellow is less acid).

OXHEART, (86 days) One of the largest sweet-flavored tomatoes ever produced, some fruits weighing 2 lbs. each. Skin is purplish scarlet, smooth, and evenly colored. The Oxheart shape of the fruit is most distinct, and they are exeremely solid, having few seed cells, accounting for their enormous weight Primarily a home garden variety, but readily salable on local markets and roadside stands.

NEW TREE TOMATO a wonderful variety that grows upright better than any we have ever seen. Firm, solid, thick flesh large meaty centers. Fruit is purplish pink. Form always round and symmetrical and of medium size. Very productive.

CRIMSON CUSHION OR BEEFSTEAK (Abt. 96 days) is very large, round and regular, bright scarlet skin, solid flesh of best quality, seed cells small Plants are very prolific, fine appearance.

WHITE BEAUTY *Anti-acid* is ivory-white in color (flesh is almost paper white). It is of large size and of excellent quality for slicing, canning and juice. Extremely mild, contains less acid than other tomatoes, eaten by thousands of people who have heretofore avoided tomatoes on account of the acidity. Limit 3 pkts.

SMALL PRESERVING TOMATOES

10c Pkt. 50c for ½ oz. 90c for 1 oz.

Mixture of small fruited varieties are named for their resemblance to the various fruits and are very ornamental, as well as delicious in salads, preserves and pickles.

Red Pear, Yellow Pear
(Our tomato seeds are treated)

10c Pkt. 50c for ½ oz. 80c for 1 oz.
$4.00 ½ lb. $6.75 1 lb.

EARLIANA (94 days) Hardy and productive, coming into fruit in the shortest time and rapidly maturing the entire crop of fine fruit. Fruits are glove shaped, somewhat flattened, deep scarlet and smooth.

BREAK O'DAY (63 days) Outstanding for its maturity, smooth, uniform globe-shaped fruits, and resistance to wilt. Plants are large, producing an abundance of medium sized, bright red fruit with thick walls, small seed cavities, and splendid flavor. Best adapted to rich, heavy soils. For home and market.

MARGLOBE (114 days) A leading variety among canners, shippers and market gardeners. The vine is vigorous, resistant to disease, fruit a large, slightly flattened globe of fine bright scarlet color, very firm and meaty of the very best quality. Fruits weigh 7 to 9 oz.

RUTGERS *The Ideal Tomato,* a commercial variety of great importance in most of the Eastern and Southern states. Suitable for canning, juicing, and long distance shipping. Large fruit size, 6½ to 7½ ozs., globular in shape, slightly flattened, smooth, bright red, and with heavy walls and small cells. Vine is vigorous, heavy and wilt-resistant to a high degree Particularly adapted to light soils and is grown on a large scale in New Jersey and Texas.

PARSNIPS—Sugar or Hollow Crown

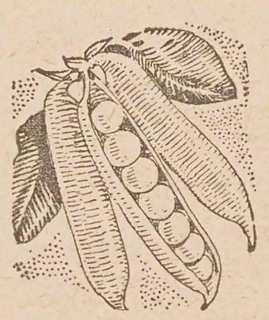
(100 Days). The standard variety, making long, smooth white roots, uniform in shape, tender and well flavored. Fine for both table and stock.

10c Pkt. 25c 1-oz. 75c ¼ lb.

TURNIPS *Purple Top Globe*—Our selected strain is superb in its uniformity of size, shape and maturity. Most popular turnip in existence.

10c Pkt. 20c 1 oz. 50c ¼ lb.

ENGLISH PEAS



Fresh Peas Have More Health Value

Calories per lb. 454. Vitamins A, B, C, G. Proteins 7.0%. Carbohydrates 16.9%. Fats .5%. Calcium .028%. Iron .0057%.

10c Pkt. 35c 7-oz.
60c 14-oz.; $1.25 2½ lbs.
5 lbs. $2.00

AMERICAN WONDER (60 days) Always comes into bearing ahead of the other wrinkled ones. Very dwarf, medium size pods of good quality, unusually productive.

THOMAS LAXTON (57 days) This has no superior as an early Pea of the medium height. The veins are strong with large dark green foliage, and grows 2½ to 3 in. tall. They bear a surprising number of dark green pods, blunt-ended, and 4 to 4½ in. long, well filled with large, tender Peas which retain their pleasing flavor and sweetness until they begin to harden. Unsurpassed for the home-garden and shipping.

LITTLE MARVEL (62 days) Tender, heavy yielder; it will be a long time, 'til we find a better one than this. For quality, yield, earliness, or any other point, it's hard to beat A vigorous grower and a heavy yielder. Three quarts of pods will often shell out a quart of peas. Tender and sweet, and of finest quality.

ALASKA *or Earliest of All* (60 days) standard, popular. Extra-early, smooth-seeded pea for market and canning. Vines 2½ ft. tall; light green. Well-filled, medium-sized pods completely packed with small round green peas, which mature practically all at one time. The pods are plump and round, light green, blunt. The mainstay of the grower who wants a variety that can be cropped in one picking

DROUGHT-PROOF PEA

For midsummer planting this is the variety to plant. The handsome round pods are well filled with from 7 to 10 peas in a pod; quality excellent, sweet and tender, even when the peas are large. Vines grow 2 feet high, and require no support. This is the pea that will do its best in the North, South, East or West.

Pkt.	15c	14 oz.	75c
7 oz.	45c	2½ lbs.	$1.45

PEPPERS

15c Pkt. 75c ½-oz. $1.35 1-oz.

CALIFORNIA WONDER *(122 Days)* The best large fruited pepper, very smooth, color deep. Meat thick, tender, and of finest flavor. It is fast replacing other varieties. Peppers are about 5 inches in length and 4 inches in width, being blocky in shape. Rich and glossy.

PERFECTION PIMENTO 125 days) The best of the medium sized and excellent for stuffing, smooth, sweet heart shaped peppers, largely used by canners (about 3 in. long).

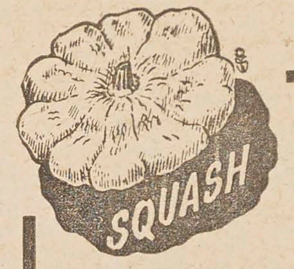
LONG RED CAYENNE (120 days) A very strong variety; fruit is about 5 in. long and slender; bright red when ripe.

10c Pkt. 50c for ½ oz. 90c for 1 oz.

GROW YOUR OWN COFFEE 1c Per Pound

Grow your own coffee at an expense of less than one cent per pound. The Domestic Coffee Berry makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and strength to young and old. The best coffee substitute ever discovered, and thousands pronounce it as good or better than the best coffee. It has the rich, deep brown color of old Java. One of the easiest grown and most productive of all plants. It is an early variety of soy beans; can be successfully grown in any climate, and is sure to ripen even in the extreme North. As easily grown as corn or beans, and does well on all soils. Thousands suffer untold injury from store coffee. Better grow some of the domestic Coffee Berry this year and save your health and money. Prepared like any other Coffee. Full directions with every packet.

15c Pkt. 7-oz. 35c



10c Pkt. 30c 1-oz.
85c ¼ lb.

NEW ITALIAN MARROW (60 days) *Zucchini* is 18 in. long, 5 to 7 in. in diam. when matured; an excellent keeper, very dark green. Bush type is very productive. Nothing better for slicing and frying when small, if kept picked, will continue to bear until frost. Delicious in the "baby" state, 3 to 6 in. long.

EARLY PROLIFIC STRAIGHTNECK, new high yielding summer squash. Plants strictly bush and compact. Quality unsurpassed.

TABLE QUEEN (80 days) sometimes called *Acorn* because of its shape. Most deliciously flavored, excellent for squash pie. Just the right size to cut in half to serve two. About 6 in. long, shell is thin, hard, dark green. Flesh yellow and very tender.

GIANT SUMMER CROOKNECK (58 days) larger than the above, the golden yellow fruits growing 12 to 14 in. long and 3½ to 4 in. across. Valuable for home or market.

DELICIOUS (110 days) has become known for its supreme quality produces medium sized, top-shaped, dark green fruits with light green markings. Each fruit weighs from 5 to 10 lbs. The dry flesh is bright orange, thick, fine grained, and of outstanding flavor A splendid winter keeper.

WHITE SCALLOP (50 days) for home and market. Round with scallop margins. White when mature.

BANANA SQUASH (105 days) for home and market. 20 to 24 in. long and 6 in. thru. Flesh is light orange, fine grained and rich in flavor.

HUBBARD Winter keeper, large fruit, golden strain.

RADISHES

10c Pkt. 25c 1-oz.
75c for ¼ lb.

CRIMSON GIANT grows almost twice the size of an ordinary radish, and yet does not become hollow. Very mild and sweet. This brilliant, crimson radish is one of the best for the home garden.

SCARLET TURNIP—WHITE TIPPED is our favorite, it'll be your favorite too! Almost completely round it matures in about 20 days; deep scarlet color with a distinct white tip.

WHITE ICICLE will make a good cash crop for you. Even in size, good shape, perfectly white clear to the top it is sweet, tender and mild

SALSIFY is rapidly gaining popularity because of its delicious oyster-like flavor. A real delicacy fried, stewed, or used in soups. Come along in late summer and fall. Culture same as parsnips. Some should be dug and stored for winter use, some left for early spring.

MAMMOTH SANDWICH ISLAND SALSIFY is tender, delicious, smooth, has beautiful white roots of excellent quality.

10c Pkt. 60c 1 oz.

SPINACH *Bloomsdale Long Standing* (45 days) latest of the Long Standing Spinach introductions. Improvement was accomplished through the selection of hermaphrodite plants (bisexual), which run to seed much more slowly than the unisexual. This variety is of better quality than the Antvorskov (King of Denmark), having larger, Savoy type leaves.

10c Pkt. 25c for 1 oz. 65c for ¼ lb.

RUTABAGAS *Our Improved American Purple Top* matures in 90 days. A fine strain of largest size, best shaped variety, small neck, smooth skin; good cropper and keeper. A heavy yielder. Excellent table quality.

10c pkt. 20c 1-oz. 50c for ¼ lb.

VICTORIA RHUBARB is an excellent and hardy sort for home garden.

15c Pkt. 40c for 1 oz.

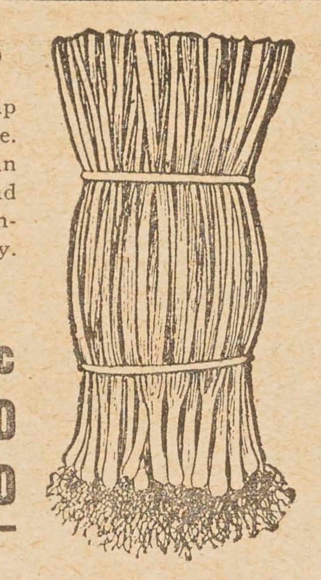
VEGETABLE SPAGHETTI

15c Pkt. 40c 1 oz. $1.00 ¼ oz.

This delicious new vegetable from Persia thrives in all climates and in any ordinary garden soil. Each plant produces from 6 to 10 beautiful bright yellow, oblong fruits about 8 to 10 in. long. Each fruit is filled with a delicious spaghetti-like pulp. When fully ripe, the whole fruit (without cutting or peeling) should be cooked 20 min. in boiling water; then cut in half. A dishful of this delicious vegetable spaghetti come out of each fruit. Season with salt, pepper and butter and serve hot.

VEGETABLE PLANTS

ONION PLANTS



Sturdy, healthy plants ready to ship now. Guaranteed free from disease. They will stand heavier frosts than "frost proof" cabbage plants, and even light freezes without being injured. Crystal White Wax variety.

NOVELTY SEEDS WORTH TRYING

NEW GUINEA BUTTER VINE, one of the most delicious of all vegetables grows to enormous size, one fruit often weighs 15 lbs. (3 to 5 ft. long). More productive and easier to grow than squash but can either be grown similarly or trellised up. Vines are always free from disease and insect pests, standing more neglect and abuse than other vegetable vines. Fruits best small (during fuzzy growth) most delicious cooked like Squash or fried like Egg Plant……………………Pkt. **15c**

CHINESE SALAD BEAN, use for bean-sprouts, serve in chop suey. An all-the-year-around salad, enough for good sized family can be grown in small dish or pan in kitchen in 3 to 5 days, in water only, without soil, sunshine or chemicals. Unexcelled for soups.

15c Pkt. **35c** for 7 oz. **60c** for 14 oz.

CHESTNUT BEAN grows in form of a tall bush completely covered with pods. Chestnut-flavored bean cannot be surpassed for soup and turkey stuffing. Popular and known in Spain as the "Garbanzo."

15c Pkt. **45c** for 7 oz. **75c** for 14 oz.

WONDER BUSH CHERRY grows about 18 in. high, bears crops of best flavored fruit you ever tasted. Use raw, also makes better pie than tree cherries. Sometimes call *Ground Cherry*, bears 8 weeks after planting ……………Pkt. **10c** ½ oz. **50c**

GARDEN HUCKLEBERRY grows about 4 ft. tall, producing literally ropes of jet black fruit from ground to tips of branches. Fruit matures about with ordinary tomatoes size about that of cranberry; and is delicious for preserves or pies……………Pkt. **10c**

GROUND ALMONDS 200 to 300 Nuts in a Hill. The Ground Almond, or Chufa, has a fine flavor, resembling the Cocoanut or Almond. The meat is snow-white, covered with a thin shell or skin of brown color. It grows close to the surface. Is very prolific, a single nut yielding from 200 to 300 nuts in a hill and will do well in any kind of soil. If nuts are planted in the spring a big crop can be expected about potato harvest time. Usually eaten raw but have an excellent flavor either raw or roasted. (Unable to ship to California.)

15c Pkt. ½ lb. **60c** 1 lb. **$1.00** postpaid

GIRASOL—The Lazy Man's Spud

Choice Seed Tubers: 6 for 45c; 12 for 75c; 25 for $1.50 50 for $2.50 100 for $4.00

All stock and poultry like Girasol tubers, but perhaps the most profitable use would be as hog feed, the hogs doing their own harvesting with no expense. Trials along this line have yielded 744 pounds pork gain per acre; this might be considered NET PROFIT. The silage crop would be more than enough to cover cost of seed, land rental and cultivation expenses. Adding grain to balance the ration would of course help. Every farm should have from one-fourth to one acre of Girasol so that they coul turn the hogs on it in the fall. It's a big money-maker for hogs.

Girasol may be eaten raw or cooked, but the insulin in Girasol that replaces starch in most other vegetables need not be cooked to bring out its food value. This crop will grow on most any kind of soil but the richer the better of course, but it will do better on poor soil than most any other crop. Single tubers often weigh more than a pound but the average is smaller and more irregular shape than potatoes.

WONDERFUL HOG FOOD

It is not NEW for it has been raised in Europe for centuries under another name. France alone produced 1,686,030 long tons in 1928 so our Consul at Paris wrote. Girasol tubers will outyield potatoes two or three to one under similar conditions. Yields of 10 to 20 tons per acre are common. Girasol tops are about a third or a half the diameter of sunflower stalks, but usually two or three feet taller and yield 10 to 22 tons silage per acre. Girasol is not injured by freezing. The whole or a part of the crop of tubers may be harvested in the Fall or the Spring following. Girasol is propagated by tubers only, not from roots and joints like quack grass and thistles so it cannot become a serious pest if allowed with pasture, hay meadow or good cultivated crops.

Flower Seeds for More Attractive Gardens and Homes

In case we are out of some variety you order and it is not available, we will give you the next best, unless otherwise indicated and so stated on your order. We will name the variety substituted and so state on package, "Substituted."

KOCHIA Burning Bush or Summer Cypress
This beautiful bush grows about 2 to 2½ feet in height and resembles a closely trimmed ornamental evergreen. May be grown singly or in the form of a hedge or background. In early fall the entire brush turns bright scarlet
Pkt. ……………… **10c** ½ oz. **25c**

WATERMELONS

Kleckley's Sweet or Monte Cristo.

One of the earliest, best and sweetest-flavored melons in cultivation. On account of its thin rind, it will not stand shipment to distant markets, but it is the best that can be grown for the home and nearby markets. The skin is dark green. It is of symmetrical oblong shape, well rounded on both ends. The flesh is scarlet, firm, solid and of delightful flavor.

Dixie Queen

(85 Days). An excellent shipper. Ideal size—30-lb. average. Round thin rind, delicious flavor. Seeds small and white color.

California Honey

(77 Days). (New ice box size). Fruit 8"x10"—deep green. Delicious sweet flavor.

Stone Mountain

(88 Days) Also known as Dixie Belle. A popular round watermelon with grayish green smooth skin and beautiful deep crimson flesh without any white in the heart or stringiness. The average melon weighs about 45 lbs. each. It has a thin rind and is fine for home use and local markets where a nearly round melon is desired.

Winter Watermelon

A home-grown melon for your Thanksgiving dinner. It is not a citron or a freak, but a very prolific, long-keeping true watermelon. Flesh red, extremely firm, very brittle and deliciously sweet. Fruits taken from the field before killing frosts and stored in a cool place will keep long into late fall and early winter and retain their delicious sweetness and flavor.

Peerless

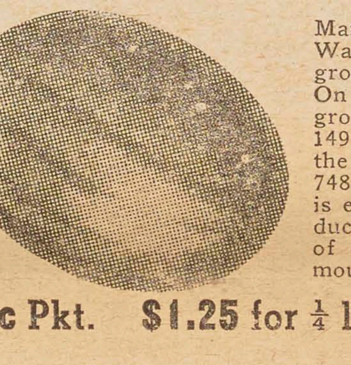
(85 Days). Highest quality melon for home and market. Flesh bright scarlet. Sweet meat. Sometimes called Ice Cream. Very early.

Tom Watson

(95 Days). A very large melon weighing 35 to 40 pounds. An excellent shipper. Skin is light green with darker veins. The flesh is deliciously sweet and juicy.

10c Pkt. 25c for 1 oz. 75c for ¼ lb.

MAMMOTH PRIZE WATERMELON



Mammoth Prize is the largest Watermelon grown. Many grow to from 100 to 150 lbs. On one vine, 5 melons were grown that weighed 152, 151, 149½, 148¾ and 147 pounds, the five weighing a total of 748 pounds. The seed we offer is extra select, and should produce fine, sweet, juicy melons of excellent quality and enormous size.

15c Pkt. $1.25 for ¼ lb. $4.50 for 1 lb.

GOLDEN HONEY MELON

A fine yellow flesh melon that makes a novel home and market garden type. Large oblong shape, weighs 20 lbs. Flesh tender, crisp and a delicious flavor. Try it for yourselves and be delighted in this novel melon.

Pkt. 15c $1.25 ¼-lb.

12 to 18 in.	$3.00 each

These Evergreens are BALLED and BURLAPPED, which means that they are taken up with a ball of dirt around the roots and burlap is pinned or sewed around them. (The average weight of our 3 to 4 foot Evergreens is about 65 pounds per tree.) All above prices are FOB Rogers, Arkansas, and are not prepaid. When ordering the above Evergreens, please state on your order blank to ship them by Express or Freight Collect for the transportation charges.

EVERGREENS

These Evergreens are young trees, from 3 to 5 years old. They are well rooted and well shaped and will, in a few years, make a fine specimen evergreen. We offer the following kinds that will range in height from 8 to 10 inches: Norway Pine, Black Hill Spruce, Juniperus Virginiana, Scotch Pines, American Arborvitae.

Each 20c — 12 for $1.80

LARGE MONTMORENCY — Medium, dark red.

ENGLISH MORELLO—Late; almost black.

HYBRID CHERRIES

ST. ANTHONY—Hybrid of Sand Cherry and Zumbra; dark purplish black. All the Hybrid cherries will bear first year after planting under favorable conditions.

COMPASS CHERRY — Cross between Sand Cherry and Minor Plum; dark red, large.

HANSEN'S BUSH CHERRY

Perfectly hardy anywhere. Makes superb jam or jelly.

2-year bearing size 60c each

12 for $6.00

CRAB APPLES

for All Climates

Crab Apples are especially desirable in the colder sections as only a few varieties of apples can be successfully grown; but they succeed well in all climates and their fruit is very popular for preserves, jelly, and some sorts are excellent for eating.

FLORENCE—The finest of the Crab Apples. Tree of rather small size, coming into bearing when very young and producing heavily; the fruit setting in clusters. The apples will measure about an inch or slightly more in diameter; golden yellow with a bright cheek, or almost entirely red. The flesh is firm, fine grained and exceedingly juicy with that distinct snappiness so relished in a crab apple.

RED SIBERIAN—Fruit about an inch in diameter, brilliant yellow with an attractive red cheek; very juicy and excellent for jellies, preserves and pickles. The tree becomes a very large size.

2 to 3 ft. .... 50c each

3 to 4 ft. .... 70c each

4 to 5 ft. .... 95c each

DOLGO

DOLGO—A handsome red Crab Apple. Flesh is deep red to the core. The fruit is full of juice, jells easily and makes a rich ruby red jelly of beautiful color and excellent flavor.

2 to 4 ft. EACH 80c

Here Is What Some of Our Satisfied Customers Say:

Houston, Tex.
March 18, 1947.

Benton County Nursery Co., Inc.
Rogers, Ark.

Gentlemen:

I have dealt with or investigated a dozen nurseries, and all things considered I like yours best.—Your very truly, Sam W. Davis, Attorney-at-Law, Sterling Building.

Allegro, Ky.,
Jan. 14, 1948.

Benton County Nursery Co.,
Rogers, Ark.

Dear Sirs:

I am sending you some photographs of some two-year-old peach trees that I bought from you. Note how they are loaded with peaches, this is myself, and by the way, I had canned peaches for dinner from these trees today. My trees have done good I would say.—Yours for better fruit, L. H. Sims.

Hazel, Ky.
Dec. 11, 1947.

Benton County Nursery Co., Inc.
Rogers, Ark.

Gentlemen:

I received my shipment of fruit trees in perfect condition. I am more than pleased with the size of the trees. We certainly will recommend your nursery for bargains. Should I need more trees, I know where to order from now. Please send one of your nursery bargain books to Densil Paschall, Hazel, Ky.—Sincerely, Pat Caraway.

Cameron, Tex.
Jan. 14, 1948.

Benton County Nursery Co., Inc.
Rogers, Ark.

Gentlemen:

I received the fruit trees from you, they sure are good looking and big. One of my friends came to me when we were planting them and he asked me what they cost. I told him $1.65 and he says for one? I told him all 12 and they sent me 1 free besides, and he looked and said I don't believe that. I sure thank you for the free grape. I will order some more this fall. I just bought a place and it takes so much work to clean it and repair it and I have to fix a place for my orchard. Thank you once more.—Your customer from now on, Frank Vonsa, R. No. 1.

Adairville, Ky.
Dec. 4, 1946.

Benton County Nursery Co., Inc.
Rogers, Arkansas.

Gentlemen:

Could you quote us wholesale price on any surplus stock you may have on hand, peach, apple and evergreen, young stock?

We bought and planted 100 Peach and 100 Grape from your nursery about five years ago. Having bought nursery stock from several firms, we find yours to be far superior to any we have used. They live better, bear earlier, and produce better fruits.—yours truly, Bailey Bros.

Nov. 25, 1946.

Benton County Nursery Co., Inc.
Rogers, Ark.

Gentlemen:

I must tell you how well pleased I am with your nursery. I am 82 years old and still planting your trees and shrubbery, for years and I've never found a fault with anything I've got from you. I've bought a new house and a four acre lot, I want to begin planting fruit on it at once so I'm sending you a small order to plant in the yard. I hope it's not too late to plant them this season as I've just moved to my new home and hope to send your company a big order later on.—One of your oldest customers.—Respectfully, Miss M. B. Anglea, Castalian Springs, Tenn.

PEARS

LOW AS — 88c ea.

CLAPP'S FAVORITE—A large fine pear resembling the Bartlett; pale lemon yellow with brown dots and a fine texture; buttery, juicy, melting with a delicate flavor; tree hardy and productive. August and September.

FLEMISH BEAUTY—Large and juicy, medium late.

BARTLETT—Early, large; good quality.

GARBER—Very large, oval. Sweet and very pleasant.

DOUGLAS OR BLIGHT-PROOF—Large; good quality; late; free from blight.

KEIFER—Large, golden yellow, late.

ANJOU (Buerre d'Anjou)—A large fine and melting, with sprightly flavor; tree a fine grower and very productive. One of the best. October to January. (Blight Resistant).

SHELDON—The tree is large, vigorous, upright, spreading and productive. The fruit while not large is sufficient in size to meet the demand for a good dessert fruit and no rival in season, surpasses the Sheldon for appearance or quality. The flesh is melting and juicy, sweet vinous and highly perfumed. Keeps well and is a good shipper. Fruit matures in October.

WILDER'S EARLY—Very early and gets sweet on the tree.

NECTARINES

A cross between a peach and a plum. Resembles a peach in shape, size and flavor. As fuzzless as a plum. Fruit is large, juicy and melting. Unequaled either as a fresh fruit or for canning. Flesh fine-grained and a beautiful color clear to the pit. Has the same habit of growth and bearing as the peach, and requires the same care.

SURECROP — Red freestone underlaid with yellow.

PINEAPPLE—Red freestone.

QUETTA — Red clingstone.

2 to 3 feet, $1.00 ea. 3 to 4 feet, $1.20 ea.
4 to 5 feet, $1.40 each

NEW IMPROVED GARBER PEAR

(BLIGHT PROOF)

Fruit larger and of better quality than Garber. Tree an upright grower. Bears heavy and abundantly. Fruit ripens August 25th.

We have only a few of these trees — Limit 5 to a customer.
ORDER EARLY

2 to 4 ft. size, Prepaid .... $1.50   4 to 6 ft. size, Prepaid $2.00

SEEDLESS PEAR

Brand new variety. Practically seedless. Solid all the way through. Ideal for canning. No waste. It is of the Bartlett type, pure white flesh with yellow blushed skin. Ripens 10 days later than Bartlett, and trees bear when three years old. A 5-year tree known to bear 3 bushels of fruit.

2 to 4 ft. size, each $1.75

APPLES

YELLOW TRANSPARENT—Extra early, yellow, June and July.

JONATHAN—Fine quality. August and September.

GRIMES GOLDEN—August and September.

YELLOW DELICIOUS—Large Golden Yellow. Fine quality. Bears young and heavy crops. October.

DELICIOUS—Fine quality. October.

MAMMOTH BLACK TWIG—Large, dark red. Keeps all winter.

SUMMER CHAMPION—Best red late summer apple.

TRIPLE RED DELICIOUS—Of best quality and good keeper.

BLOOD RED ROME BEAUTY—Bright large beautiful red late apple.

BLOOD RED JONATHAN—Good size and quality. Red all over.

STAYMAN WINESAP—Large, striped red. Winter keeper.

LODI—Much larger than Yellow Transparents. Good Bearer.

TURLEY—A blood red stayman winesap that does not crack.

YOUNGBERRY

The new Youngberry has achieved the greatest success ever scored by any of the berry family. It not only bears very heavily but the fruit is easy to handle; it is very attractive, ships well, keeps and cans well. It has so many commercial possibilities and it fits in so well in the home garden that everybody should be interested in having a few vines or a commercial planting. The Youngberry is the result of the careful and patient efforts of Mr. Young in crossing the Loganberry and the Texas Dewberry. It has given the world its choicest bush berry with characteristics in size, appearance, flavor and general usefulness that has opened new possibilities in berry culture.

Youngberries are universally liked and easily grown. They are among the largest berries, of dark wine color, have a minimum of seed, highly flavored and yield a rich looking cherry colored juice. In the home garden you will find that more fruit will be produced from a few Youngberry bushes than any others that will grow on the same amount of ground. Youngberries thrive where any other berry fruits grow but do the best in states of the same latitude as Ohio and South.

8c each; 80c per doz.; $6 per 100

Plant the New

BOYSENBERRY

for Handsome Profits!

One of the largest and finest vine berries ever introduced. The Boysenberry is a new variety produced by crossing blackberries, raspberries and loganberries. The flavor is a very pleasing blend of these three varieties. It has few and soft seeds. The plant is very vigorous and hardy, coming through in good condition, without injury, in temperatures as low as 19 below zero. The berries are extremely large, many of the berries getting more than two inches long and over one inch in diameter.

Each 12c; 12 for $1.20; 100 for $8.00

$10.00 doz.

FILBERTS

(or Hazelnuts)

Good quality and bear almost every year and very young.

2 to 4 ft. 75c ea.; $7.50 doz.

PAPER SHELL PECANS

STUART—Very large, oblong, marked with dark color, shell medium thickness, flavor rich and sweet; nuts averaging 40 to 60 per pound. One of the earliest and heaviest bearers. No one will make a mistake in planting largely of this variety as it succeeds on the different soils, especially on the clay soils of the northern portion of the cotton belt.

SUCCESS—Size large, oblong, tapering to the apex. Color reddish brown, purplish markings, shell thin, cracking quality good; partitions thin; kernel large, full, plump, yellow; flavor sweet, quality very good. The tree is a good grower. A fine variety. Success usually is one of the latest to start growth in spring.

Best Hybrid, Methely, Hanska, Gold, only. Few hundred of these left, only 10 to a customer.

SEEDS for POULTRYMEN

CHISHA, OR CHICKEN LETTUCE

You have, no doubt, read in the poultry journals that lettuce is an excellent feed for chickens. In the Chisha Lettuce you will find a feed that yields as much or more than other green feeds. It is economical to grow this strain, for when cut it resumes its growth rapidly and can be cut again and again; or the leaves can be pulled off each stem like the Jersey Kale. The yield is extremely heavy. Chisha, or Chicken Lettuce, does not make a head, but sends up a stout stalk, 3 to 4 feet high, and just loaded with leaves.

Pkt. 10c; 1-oz. 35c; ¼ lb. 75c

MAMMOTH RUSSIAN SUNFLOWER

Sunflower seed is an excellent poultry feed at all times, and especially during the molting season. Single heads often measure 12 to 22 inches in diameter and contain an ammense quantity of seed.

Pkt. 10c ¼ lb. 35c 1 lb. 75c

KALE OR BORECOLE

(80 days) Jersey or thousand headed, immensely productive sort much grown for chicken feed. Ideal for stock. Plants tall, sometimes attain height of 5 ft or more. Much branched and tree-like and bears an abundance of thick smooth deep green leaves.

Pkt. 10c; 1 oz. 25c; ¼ lb. 75c

PROSO The WONDER EGG and Meat PRODUCING Poultry Grain

Do not confuse this Proso with common hog millet. Proso seed is white, and larger grain. Hog millet is yellow.

Here is a new Poultry Grain that owes its origin to Russia, that enables you to raise your own feed. If you only have a small plot of ground, you can make an enormous crop. Proso is unlike anything you have even seen in this country. It grows more rapidly and matures quicker than other grains. It reaches a height of three to four feet, stools and branches making fifteen to twenty-five heads instead of one. That is why it yields such enormous crops from such unbelievably small plots of ground.

Wonder Egg and Meat Producer for Chickens, Ducks and Geese

Proso makes a splendid mash when ground alone. When feeding with corn or oats the ration should be four parts Proso to one other grain. It may be fed in bundles as the kernels are readily scratched out of the heads, or it may be fed as clean grain from the thresher. Produces more eggs and meat per bushel than ordinary grains.

Fine for Hogs, Cattle, Sheep. Grows Anywhere. May Be Planted Late. Although a native of Russia, Proso does better, grows faster and matures quicker in our climate. During the fifteen years since it was first introduced into this country it has become acclimated so that it now grows here just as well as our native crops. It may be planted any time after corn planting time up to the middle of July. Shipped postpaid.

POULTRY BEET — MANGEL WURTZEL

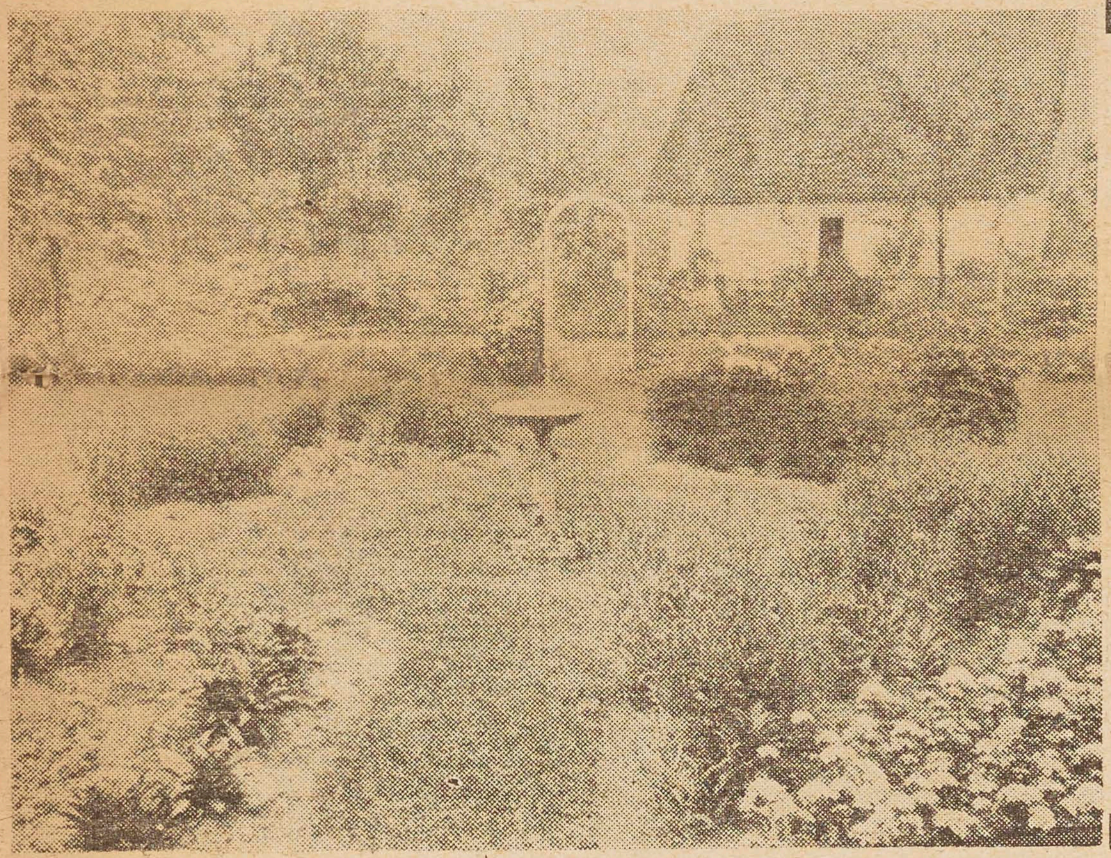
Tremendous yield per acre. Makes excellent green feed for poultry during the winter and always increases egg production. Mangel Wurzels are excellent food for cattle, keeps them in perfect physical condition and increases the flow of milk. Only a little garden space required for growing enough to last all winter. They are very productive Stored in cellar or any cool place, they keep until spring.

Pkt. 10c; 3 Pkts. 25c; ¼ lb. 75c; ½ lb. $1.25; Lb. $2.25

POULTRY CABBAGE

Is a wonderful green food for poultry. Has been known to yield 3 tons in 40 by 60 feet. You can't beat this for low priced feed. One-half pound of seed will grow enough greens to feed about 1,000 hens for four months: 3 pounds to an acre for 6,000 hens for four months. In the Northern States the seed may be sown any time from early spring until the middle of July. In the South, seed may be sown the entire year.

Pkt. 10c 1 oz. 50c
¼ lb. $1.50



For a Beautiful Lawn . . .

KENTUCKY BLUE GRASS

Excellent lawn grass; ideal for golf fairways and putting-greens; the sweetest and best pasture grass. Plants slightly creeping with deep green narrow leaf blades. 5 pounds will sow 1,000 square feet for lawns; 40 pounds per acre for pasture. Plant in the fall and early spring.

1 lb. 90c; 5 lbs. $4.00

"Chicago Parks" Lawn Seed

The finest grass seed we know of. We recommend this grass for beauty and durability.

1 lb. $1.05 5 lbs. $5.00

Prices on larger amounts on request

PERENNIAL RYE GRASS SEED

(Winter Green)

A fine winter lawn grass. Fast growing with broad, flat blades of a beautiful green color. When scratched in the present lawn it will produce in about two weeks. It makes a beautiful solid carpet of green by itself. Sow about 10 lbs. per 1000 sq. ft. (50'x20'). When planted on Bermuda or carpet lawn the grass should be mowed as closely as possible before sowing Winter green seed. It lasts until the Bermuda grass or carpet grass comes up in the summer. It does well in sun or shade. Postpaid.

DE LUXE MODEL

Printed in seven different colors. The revolving chart points to A-B-C-D-E-F-G, which denotes the various degrees of acidity, alkalinity or neutrality of the soil. By turning to A, which is highly acid, you are told which flowers or vegetables will thrive in this soil.

The small bottle contains a sufficient supply of Alkemi Soil Testers to make at least 50 tests. This bottel is permanently attached to the chart. To remove the testers, you remove the cord and replace it to keep the testers handy.

Reverse side of Chart contains Soil Indicator listing more common vegetables and flowers and beside each are certain key letters which denote the type of each soil is apt to thrive in.......................................**$1.00**

D.D.T. Dust and Duster..........Postpaid **65c**

KILOGEN . . . Kills

many of the insects that ruin house and garden plants. Also kills ants on lawns and flower beds.

2½ oz. bottle—makes 250 times its volume.......... **50c**

BUG-GETA-PELLETS

Use against Slugs, Snails, Cutworms, Grasshoppers, Strawberry Root Weevil, Sowbugs, Army Worms and other insects.

Postpaid **35c**

D.D.T. 20% PEST-B-GON

2 to 3 tsp. makes a gallon of spray. Beetles, Worms, Thrips, Leafhopper, Weevils, Ants, Fleas, Mosquitoes and many other insects. Full directions on each 4-oz. bottle. REMEMBER the D.D.T. is deadly to certain insects, therefore it will not do away with all other spray materials. For instance, Cockroaches can be controlled by Sodium Fluoride and many other products now in use as well or better than with D.D.T. Be sure you know what insects you want to use D.D.T. on. DON'T be misled by many sales talks, D.D.T. is the Atomic Bomb of the insect world. Follow directions on bottle carefully.

4 Ounces Postpaid.......... **$1.00**

All members of the same family please order under the same name, preferably the head of the family.

C.O.D. ORDERS MUST HAVE A DEPOSIT PAID ON THEM. We are sorry that experience has taught us that it is a losing proposition to fill orders and make shipments unless a deposit has been paid on the order; our stock is perishable and must have prompt attention when it arrives at destination and we are compelled to ask a deposit of 25 per cent of the amount of the order as a guarantee of good faith. We guarantee satisfaction or your money refunded.

Our Guarantee

On proper proof, we will replace free of charge any trees, shrubs, etc., that prove untrue to label, or refund the amount paid, optional with us. Because of the many factors over which we have no control, we cannot be responsible for the crop, nor for any amount greater than the purchase price. All claims, except stock not true to name, must be made before May 1st after planting. If stock has been planted and handled according to our instructions, we will replace, free of charge all stock that does not start growth, and will replace at one-half price all stock that does start growth and then dies and is reported to us before May 1st after purchase.

PLANT BY THE MOON

256 Pages *By Llewellyn George*
Well Known Author & Lecturer

The Moon Sign Book gives complete instructions in the use of planetary influence on planting and harvesting, also business and personal affairs, etc., the result of more than thirty-five years of research. Why do farmers plant Potatoes in the dark of the moon? When should Corn, Beans, etc., be planted? Why florists plant seeds in the 2nd quarter and a certain Moon Sign? Why you should plant flowers in Libra on a certain date and Moon's phase. These and many other questions are answered and explained in a simplified yet scientific and practical manner. The Moon Sign Book has been published annually for over 37 years with sales increasing each year. A mine of useful information. Price in the U. S. **$1.10**

RAYFLEX Your Lawn

We Pay Postage On All Orders to Any Part of U. S. Except Balled Evergreens

OUR CREDIT PLAN, NO PAYMENT PLAN ORDER ACCEPTED AFTER MARCH 15TH

On orders amounting to Ten ($10) Dollars and up we will be glad to make the following terms to responsible people in order that you may buy and plant what Nursery Stock Seeds and Plants you will need while the season is on to plant them and pay the balance due on them after they are planted. This enables you to have the stock coming on while you are paying out the balance due.

In buying on our credit plan your order must amount to $10 or more. To each dollar your order amounts to add 6 cents. This is done to defray the extra expense of taking care of the Credit Plan orders.

One-half of the amount of the order is to be paid down with the order, or before shipment date. The balance is to be paid in three equal payments, as follows: One-third of the amount due to be paid one month (30 days) from date of shipment. Second payment of one-third of the amount due is to be paid two months (60 days) after date of shipment. The third payment of one-third the amount due is to be paid three months (90 days) after date of shipment. You may if you prefer send a deposit of 20 per cent of the amount of the order and we will ship C.O.D. for balance due on the first shipment.

We prepay transportation charges on all orders except Balled and Burlapped Evergreens. Be sure to give your Post Office and Express Office if your Express Office is not same as your Post Office.

We guarantee our stock to reach you in good condition. If found otherwise return to us immediately by express or mail, and we will refund every penny paid to us and paid by you for express or postage. Weather and soil conditions and the way stock is handled after it leaves us have much to do with stock growing off and doing well, all these being beyond our control. We will replace any trees or plants sold by us this year if reported by May 1st, after purchase.

Find enclosed $.......... One-half of the amount of this order. Thirty days after shipment of this order I will send you one-third of the balance due and same amount each 30 days thereafter until the balance is paid.

I submit following statement of facts to induce you to extend credit on easy payment basis:
